

STRAIGHT BLADE

**Industry's Most Durable & Efficient
Straight Blade Plow**

844.BLU.PLOW
(844.258.7569)

www.danielsplows.com

Incredibly Efficient

- Daniels Plows offers a straight blade in the perfect size for mounting to skid steers and mini wheel loaders!

- Unlike some competitor plows, Daniels Plows uses pins and machined bushings for all connection and swivel points for equipment and longevity

STANDARD FEATURES

- Fully floating design allows for safer and easier operation and reduces wear to edges along with curbs and parking lots. This is also much safer for the operator (no sudden stops when encountering hidden obstructions), and easier on the plow and machine
- Double-acting cylinders with maximum stroke at 35 degrees
- Swivel Plate and pivoting backing plate
- Reversible AR400 steel cutting edges
- Fully Welded Construction

AVAILABLE OPTIONS

- Pusher Kit
- Skid Shoes
- Curb Guards
