Incredibly Efficient

- The Daniels Wing Plow can best be described in two words - Incredibly Efficient!
- By using one plow to both push and stack snow, the need for multiple pieces of equipment at the job site is eliminated.
- The patented, fold-back wing design lets you reduce the plow's size by up to 50% for unsurpassed maneuverability, ease of transport, and when conditions call for a smaller plow size.

Wing Plow Specifications

Model Number	3412	3414	3416	3418	3420
