

Daniels DRAGON Plow

844.BLU.PLOW

(844.258.7569)

www.danielsplows.com

Incredibly Efficient!

- DRAGON Plow is an additional option to complement your front mounted plow by allowing your truck to carry an extremely large volume of snow in up to a 16' path.
- 2,000 lbs. of Down Pressure for scraping down to the pavement!
- Independently operated wings with 180 Degrees of rotation to optimize versatility.
- Simple use under bumper mount for quick connection and disconnection.
- Wings equipped with hydraulic relief and shear bolt design.
- Standard two-piece design of wing hinge corner closure between moldboard and wings without additional mounted pieces.
- No need to remove the vehicle tailgate to mount or utilize the DRAGON Plow.
- Allows full use of tailgate and built in OEM rear mounted camera.
- Folding plow stand is fully useable and accessible when tailgate is open.
- Easy access to covered power unit and manifold for standard maintenance: Accessible fluid fill, coils & valves, and hose fittings.
